

# Enterprise Mobility Management

INTRATEM provides **Mobility Management Services** across numerous industries. Since its **inception in 2004**, Intratem has recognized the remarkable impact mobile devices have on business. Our main objective is to facilitate a **stress-free** and **cost-effective** mobile business environment for our clients. We are a team of knowledgeable and certified mobility experts **devoted to the success of your company.**

**As experts** in auditing wireless bills, correcting billing errors, optimizing wireless plans, and negotiating deeper discounts with all the major carriers, to date, **we saved more than \$20 million** in cellular costs for our clients. More often than not, we are able to obtain retroactive credits going back many months. All of this without switching providers, contracts, or equipment and at **no direct cost to you.** Our customers are businesses ranging from \$2 million to as much as \$1 billion in yearly sales and have anywhere from just twenty to several thousand wireless devices and lines. Regardless of their size, they have all benefited from **saving an average of 25%** from their bills!

**“ We guarantee our performance!  
Either we save you money, or you  
owe us nothing. ”**

Dimitry Malinsky  
Principal, INTRATEM
